Shakespeare has said.” *What a piece of work in man! How noble in reason. How infinite in faculty form and in moving; how express and admirable. In action how like an angel, in apprehension how like a God; The beauty of the world, the paragon of animals*”.

In these lines Shakespeare has beautifully exalted man but the same man is facing many difficulties created by man. Centuries ago when man entered into ‘New Stone Age’ from ‘Old Stone Age’ man shows his cruel and barbarian nature in certain walks of life. He is responsible for creating certain evils like \_\_\_\_\_. Pope rightly says, “What man has done for man.

Today when man has touched the surface of moon and world itself has become a global village, the evil of \_\_\_\_\_ has spread in the society of man. With the changing time \_\_\_\_\_ has become not of the most horrible problems all over the world, especially in third world countries like Pakistan.

At the very outset we must accept wholeheartedly that the evil of \_\_\_\_\_ Weakens \_\_\_\_\_ the basic foundation of nation. This evil not only demoralizes one’s nations but also becomes the cause of entire damage in the long run. This evil makes the system of state abrupt. When people are under the pressure of \_\_\_\_\_ their minds cannot be further utilized for the development of the country. People feel insecurity and keep thinking about it all the time \_\_\_\_\_. No doubt spreads discontentment in the society and ultimately a nation good

imaged gets spoiled in the word. If it is not properly checked, judicial, moral and economic system of the nation is destroyed. William Golding rightly says:

***“Man produces evil as he produces honey”.***

The main causes of \_\_\_\_\_ are illiteracy, poverty and wrong economics policies of the government. Unfortunately majority of our people is uneducated and on the other hand one education is not professional. Most of the students cram things and then like a parrot reproduce it. Because of illiteracy, people do not know the difference between right and wrong. Under these circumstances \_\_\_\_\_ gets way for its development has further increased the horizon of \_\_\_\_\_.

Lack of social and economics justice is also responsible for increasing \_\_\_\_\_. Sometimes this injustice compels people to do something wrong. When people will not be given their rights, people will raise their voice, weapons and means to compensate their hurt feeling. Lastly, in a nutshell, temptation for wealth and lust for power have given more dimensions to \_\_\_\_\_. Now materialism has gone into the very depth of man's veins and thus materialism is spreading \_\_\_\_\_ in the society in a large scale. Now people believe what long fellow has said:

*Money is honey, my little sunny*

*A rich mans joke is always funny*

History is witness that \_\_\_\_\_ has ever been one of the main causes of downfall of nations. It has ever created displeasure among the communities where this evil prevails, the machinery of government gets rusted and it quite obvious that \_\_\_\_\_ decreases respect for law. This provides a chance that the distinction between right and wrong. This evil leads to revolutions and military take-over. Any nation cannot bear revolutions and military take-over for a long timer; we can remove this evil from the society. If we believe that R.W.E. Merson has said:

***Not gold but only men can make***

***A people great and strong***

***Man who for***

***Stands fast and suffer long.***

If we want to root out this evil, then a complete change of political, social and economic system is necessary. Worn-out dated methods of removing evils like \_\_\_\_\_ should be left now. Instead of believing in bookish-theories, we must do something practical to kill this evil. We will have to make anew government, which should be very much sincere to public. This new government should send those people in administration that can really know and settle the problems of public. Different kinds of departments should be established to wipe out the evil of \_\_\_\_\_. The minds of the people can be changed by moral! Values small values. Morality should be an inevitable part of education. Lastly, there should be an exemplary punishment of those who are responsible for creating this evil. Political parties, N.G.Os and national media can play very important role to root out this evil.

To conclude, we can say that if we want to make progress in our country, it is our duty to co-operate with the government to eliminate this evil, Napoleon has said, **“Nothing Is Impossible”** Let us try to understand what long fellow says”.

*Lives of all great men remained us  
We can make our lives sublime  
And, departing, leave behind us  
Foot prints on the sand of time*
